

Project Design Phase-II
Customer Journey

Date	04 November 2022
Team ID	PNT2022TMID28896
Project Name	AI-based localization and classification of skin disease with erythema
Maximum Marks	4 Marks

Customer experience journey map

Use this framework to better understand customer needs, motivations, and obstacles by illustrating a key scenario or process from start to finish. When possible, use this map to document and summarize interviews and observations with real people rather than relying on your hunches or assumptions.

Document an existing experience

Narrow your focus to a specific scenario or process within an existing product or service. In the **Steps** row, document the step-by-step process someone typically experiences, then add detail to each of the other rows.

<div style="border: 1px solid #ccc; padding: 5px; text-align: center;"> SCENARIO Browsing, booking, attending, and rating a local city tour </div>	<div style="border: 1px solid #ccc; padding: 5px; text-align: center;"> Entice How does someone initially become aware of this process? </div>
<div style="border: 1px solid #ccc; padding: 5px; text-align: center;"> Steps What does the person (or group) typically experience? </div>	<div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;">  Searching through the internet Most people first search through the internet for reviews </div> <div style="text-align: center;">  Getting suggestion from friends, family and social media Getting suggestions from friends, family and social media </div> <div style="text-align: center;">  Symptoms Their body will react to the disease inc the temperature etc </div> </div>
<div style="border: 1px solid #ccc; padding: 5px; text-align: center;"> Interactions What interactions do they have at each step along the way? </div>	<div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;">  People: Who do they see or talk to? Places: Where are they? Things: What digital touchpoints or physical objects would they use? </div> <div style="text-align: center;">  People know out what they want their user experience to be told by the users </div> <div style="text-align: center;">  People scan disease and then know what disease they have </div> </div>
<div style="border: 1px solid #ccc; padding: 5px; text-align: center;"> Goals & motivations At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...") </div>	<div style="display: flex; justify-content: space-between; align-items: flex-start;"> <div style="text-align: center;">  The Goal is to provide better information for people in search of good website about skin diseases </div> <div style="text-align: center;">  The people's goal is to find a better site for their questions about skin problems </div> </div>
<div style="border: 1px solid #ccc; padding: 5px; text-align: center;"> Positive moments What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting? </div>	<div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;">  apply pre-work cream before starting a work period </div> <div style="text-align: center;">  apply conditioning cream after washing a hands </div> </div>
<div style="border: 1px solid #ccc; padding: 5px; text-align: center;"> Negative moments What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming? </div>	<div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;">  Sometimes there might be confusion </div> <div style="text-align: center;">  They may get many suggestions from many websites and people </div> </div>
<div style="border: 1px solid #ccc; padding: 5px; text-align: center;"> Areas of opportunity How might we make each step better? What ideas do we have? What have others suggested? </div>	<div style="text-align: center;">  Registration form </div>

TIP

As you add steps to the experience, move each these "Five Es" left or right depending on the scenario you are documenting.

Enter	Engage	Evaluate				
 <h3>Enter</h3> <p>What do people experience as they begin the process?</p>	 <h3>Engage</h3> <p>In the core moments in the process, what happens?</p>					
<div style="display: flex; justify-content: space-around;"> <div> Getting ideas <small>They can ask questions or discuss related to the disease and they can get an idea</small> </div> <div> Getting know about their disease <small>By telling the questions or by searching through the video demo we can know more our disease they have</small> </div> <div> Ask questions <small>They can ask questions related to their skin disease</small> </div> </div>	<div style="display: flex; justify-content: space-around;"> <div> Information about the skin diseases <small>By getting some basic knowledge about the disease and try it cure it</small> </div> <div> By telling about our symptoms or by uploading the image <small>By adding the image of our skin it can give some solutions to cure it</small> </div> <div> Ask questions and get an clear idea <small>It will give answers to the questions asked about the skin diseases.</small> </div> </div>					
<div style="display: flex; justify-content: space-around;"> <div> <small>We guide the users by giving the description</small> </div> <div> <small>If they not understand means we provide the video demo also how the app working.</small> </div> </div>	<div style="display: flex; justify-content: space-around;"> <div> <small>First you have to scan the image where you have the wounds</small> </div> <div> <small>The scanned image detect disease with help of the already trained skin net</small> </div> </div>					
<div style="display: flex; justify-content: space-around;"> <div> <small>Information provided should be clear and best</small> </div> <div> <small>Should match Doctor's Opinion</small> </div> </div>		<div style="display: flex; justify-content: space-around;"> <div> <small>Should be Highly useful</small> </div> <div> <small>Should be correct</small> </div> <div> <small>Predictions results must be perfect</small> </div> </div>				
<div style="display: flex; justify-content: space-around;"> <div> <small>Hold in fluid and prevent dehydration</small> </div> <div> <small>Stabilize your body temperature</small> </div> </div>	<div style="display: flex; justify-content: space-around;"> <div> <small>Synthesis Vitamin D in response to sun exposure</small> </div> <div> <small>Control stress and Exercise regularly</small> </div> </div>					
<div style="display: flex; justify-content: space-around;"> <div> <small>It may lead to dementia if skin disease is not correctly predicted</small> </div> <div> <small>No belief in apps or websites</small> </div> </div>	<div style="display: flex; justify-content: space-around;"> <div> <small>accurate detection might happen. This may lead to fear</small> </div> <div> <small>Fear of detection using apps or websites</small> </div> </div>					
<div style="display: flex; justify-content: space-around;"> <div> <small>Identify the skin disease with the image of our skin</small> </div> <div> <small>Tell us about the type of the disease</small> </div> </div>						

	 Exit What do people typically experience as the process finishes?	 Extend What happens after the experience is over?
	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> About the disease <small>At the end of the process the user can know what disease it is and what its causes.</small> </div> <div style="text-align: center;"> Effects about the disease <small>Can know about the effects of the diseases.</small> </div> <div style="text-align: center;"> What treatment to take <small>At the end of the process the user can know what treatment to take.</small> </div> </div>	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> Cure <small>Cure to the disease</small> </div> <div style="text-align: center;"> Meeting the doctor <small>Meet the doctor and get preventive measures.</small> </div> </div>
	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <small>After finishing the process the users are able to identify the which type they have.</small> </div> <div style="text-align: center;"> <small>We got a lot of similar images based on the service by the doctor and guess the correct disease.</small> </div> </div>	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <small>Then they have to consult the doctor based upon the disease they have.</small> </div> <div style="text-align: center;"> <small>They have two possible ways either directly go to the doctor or call a friendly doctor.</small> </div> </div>
	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> To get a better solution </div> <div style="text-align: center;"> Faster results </div> <div style="text-align: center;"> The data should be updated regularly </div> </div>	
	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <small>people generally leave tours feeling refreshed and restored</small> </div> <div style="text-align: center;"> <small>People looking back on their past trips</small> </div> <div style="text-align: center;"> <small>We think people like our recommendations because they have an extremely high engagement rate</small> </div> </div>	
	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <small>Delay in diagnosing skin diseases</small> </div> <div style="text-align: center;"> <small>Misdiagnosis of diseases may happen</small> </div> <div style="text-align: center;"> <small>can't pretend low or high risk</small> </div> </div>	
	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <small>User can identify the skin diseases and may get the accurate solution</small> </div> <div style="text-align: center;"> <small>Remind us to take the necessary medicines and lotions</small> </div> </div>
